**Czech Technical University in Prague**

Dear Colleagues,

You are cordially invited to participate in the International Student Conference on Applied Mathematics and Informatics, ISCAMI'18, to be organized by the Centre of Excellence IT4Innovations - Division of the University of Ostrava - Institute for Research and Applications of Fuzzy Modeling (IRAFM). The conference will be organized in a beautiful village Malenovice near Ostrava on May 10 - 13, 2018, <http://www.malenovice.com/>

Based on the successful experience from the previous six years, ISCAMI 2018 will be organized jointly with the 7th Summer School on Applied Mathematics and Informatics. This means that the programme will alter between sections with student contributions and blocks of tutorials given by invited leading researchers.

The main purpose of ISCAMI is to bring together young researchers and students and to give them an opportunity to present their achievements and ideas in the area of applied mathematics, informatics and various applications.

### **Paper Submission**

Authors are invited to prepare abstracts of no more than two pages including results and references. The abstracts will be published in Book of Abstracts equipped with ISBN. Moreover, chosen contributions will be invited to submit their post-conference publications into special issues of distinct journals. Please note, that as a student conference, ISCAMI allows active participation (abstract submission, conference presentation, post-conference publication submission) only to students and to recent PhD holders who have obtained their PhD degree less than 1 year ago. More experienced scholars are kindly welcome as passive participants but they may freely act as co-authors of the student's contributions.

### **Venue**

ISCAMI 2018 will be held in a small village Malenovice, near Ostrava, one of the culture and industrial centers of the Czech Republic. Malenovice is a beautiful place lying under the highest peak (Lysa hora, 1323 meters) of the Beskydy mountains with a picturesque view on a valley.

Please note, that the organizing committee will be helpful with the transport of participants from the Frydlant nad Ostravici railway station by shuttling cars. If the transport capacity allows then based on a previous contact a transport from the Ostrava airport or the Ostrava main railway station may be assured as well.

### **Important Dates**

|                             |                   |
|-----------------------------|-------------------|
| Early registration deadline | March 1, 2018     |
| Submission of abstracts     | March 1, 2018     |
| Notification of acceptance  | March 10, 2018    |
| Registration deadline       | April 1, 2018     |
| Conference                  | May 10 - 13, 2018 |

### **Registration fees**

|                    |                    |
|--------------------|--------------------|
| Early registration | 3900 CZK (150 EUR) |
| Late registration  | 4800 CZK (185 EUR) |

The fee covers accommodation for 3 nights, full board, coffee breaks, one scientific presentation with a possible post-conference publication, admission to scientific sessions, final programme and book of abstracts, social programme.

### **Details and contacts**
